VTX Series VTX-V20

The VTX-V20 is the small model of JBL PROFESSIONAL's top line array speaker VTX Series. This uses the latest design technology to attain an overwhelming output acoustic pressure with a compact and lightweight cabinet. This ideal sound system for medium-sized concerts and fixed equipment is constructed with an excellent distortion factor and accurate directivity controls without compromising on audio quality. The newly developed suspension system allows for set-up to be carried out efficiently.
